

Mahmoud Fattah

Front-End Engineer

Cairo, Egypt | +20 122 357 5572 | hoodafatah@gmail.com | github.com/Mahmoudfattah | linkedin.com/in/mahmoud-fattah

PROFESSIONAL SUMMARY

Front-End Engineer with 1+ year of production experience shipping scalable React/TypeScript applications across ERP, dashboard, and e-commerce domains. Delivered **50%+ page-load improvements** through code-splitting, lazy loading, and asset optimization. Proficient in **REST API integration, RTK Query, Redux Toolkit**, and complex state management. Builds typed, maintainable service architectures with clean UI/data separation.

PROFESSIONAL EXPERIENCE

Front-End Developer — Aithon

Hybrid (Mostly Remote) | Jan 2026 – Present

- Architected the full frontend of an enterprise **ERP system** (React, TypeScript, Next.js + Laravel REST API) across Inventory, Sales, Purchases, and Task Management modules.
- Engineered a real-time multi-location inventory module with automatic status logic (In Stock / Low Stock / Out of Stock), bulk allocations, and a complete movement audit trail.
- Designed typed API service layers (inventoryService, salesApi, purchaseService) with **Axios + Sanctum auth** and **RTK Query** caching — eliminating redundant requests and improving UI responsiveness.
- Delivered sales/purchase order analytics dashboards: revenue summaries, top customer/vendor rankings, and status distribution charts enabling real-time business decisions.

Front-End Developer — Apex Company

Remote | Jun 2025 – Jul 2025

- Shipped a full reporting suite (**React, TypeScript, Tailwind CSS**) with **Chart.js** visualizations and **XLSX.js** export — delivered in under one week with 100% data accuracy across all medical and financial report types.

Front-End Developer (Freelance) — IT Launchpad

Remote | Mar 2025 – Apr 2025

- Cut portfolio load time by **50%+** via lazy loading, code-splitting, and image optimization (React, Framer Motion); integrated EmailJS to fully automate lead capture and client inquiry handling.

KEY PROJECTS

Interactive Portfolio v3

Live Demo

React (Vite) · GSAP · Matter.js · Framer Motion · Supabase

- Built a physics-based UI (Matter.js) with a **GSAP ScrollTrigger** editorial intro, masked name reveal, and scale-exit transitions; backed by a **Supabase CMS** with drag-and-drop uploads and RLS-secured Storage.

SooQ-Store — E-Commerce Platform

GitHub · Live Demo

React.js · Redux Toolkit · Axios · Bootstrap 5 · Formik

- Full e-commerce platform with product browsing, cart/wishlist, auth, and payments; **Redux Toolkit** for global state, Formik + Yup for form validation, responsive Bootstrap 5 UI.

The Wild Oasis — Hotel Management Dashboard

GitHub

React.js · Supabase · React Query · Recharts · Styled Components

- Hotel dashboard with full CRUD, Supabase Auth, **React Query** caching with optimistic updates, Recharts sales analytics, Dark Mode via Context API, and reusable component system.

TECHNICAL SKILLS

Frontend	JavaScript (ES6+), React.js, Next.js, TypeScript, HTML5, CSS3
Styling & UI	Tailwind CSS, Bootstrap 5, SASS, Styled Components, shadcn/ui, Responsive Design
Animation	GSAP (ScrollTrigger), Three.js, Matter.js, Framer Motion
State Management	Redux Toolkit, RTK Query, React Query, Context API, Zustand
Back-End / DB	Supabase (Auth, Storage, RLS), Firebase, RESTful APIs, SQL
Tools	Git, GitHub, Vite, Axios, Jest, Figma, i18next (RTL/LTR)

EDUCATION

B.Sc. Information Systems — Helwan University, Faculty of Computers & AI

Cairo | 2020 – 2024

- Graduation Project: **"Bookify"** — Awarded Grade A+ · Major: Information Systems · Minor: Computer Science

LANGUAGES

Arabic — Native English — Proficient (B2)
